

LOGO GRID & SAFE ZONES

The logo grid and safe zones ensures that our logo maintains its proportions and visibility across all deliverables.

LOGO NEXT TO UNI LOGO

For the vast majority of designs, the logo should be used and can be used in conjunction with the University's logo.

main logo or secondary logo should be used according to the contrast with the background.

The university logo must always have a minimum exclusion zone of half the height of their tab logo (illustrated in blue)

RGU SU logo must always have a minimum exclusion zone of half the logo height (illustrated in pink)
